

How Art at Huntcliff School prepares students for life in modern Britain

We aim for our students to:

Be able to show an understanding of the cultural diversity around the world through understanding messages and meanings in Art.

Develop and encompass skills in Art and Design throughout all subjects and see the relevance – eg tessellations in Maths & secondary sources in History.

Through the journey of creating art we explore our environment, ourselves, our past and our future.

We encompass our feelings, fears, hopes and dreams through a range of media to communicate to a wider audience.

We solve problems, learn how to take risks and explore the freedom of seeing where the journey takes us allowing us to respond individually to the influences around us.

“Creativity is allowing yourself to make mistakes. Design is knowing which ones to keep.”

Scott Adams

“Design is where science and art break even.”

Robin Mathew

“Design is in everything we make, but it’s also between those things. It’s a mix of craft, science, storytelling, propaganda, and philosophy.”

Erik Adigard
