Our Schools App

Please see instructions below – to download the School App on your phone.

'OurSchools App' is a personalised app for our school and will allow us to keep you all updated with school information, news, calendar events and contact information.

It is like a mini website on the go giving you access to what's going on at the school, at the touch of a button.

You can download the '**APP**' from the Google Play Android marketplace or the Apple Store depending on which mobile phone or device you use. Phones that are Nokia or Windows based can easily be downloaded via a mobile site (details below).

You can also access the '**APP**' via smart pads and iPads by following the same download process from the relevant 'app' stores as mentioned above.

When we update the '**APP**' with new information or news about the school, a push button notification will automatically be sent to your own device to inform you of this update.

You can then view the notification which will then take you directly to our '**APP**'.

Any calendar events marked and sent as a push button notification will also be sent as reminders nearer the date, so you don't miss an event or date at the school.
